a good-night story for Earth Day Eve**

Fr. Greg Kennedy SJ and professional artist Nan Goodship will present their illustrated, ecological parable that explores the places of activism and faithful trust in the face planetary degradation. After the story they will reflect on the role of human creativity in the healing of Creation.

**May 5, 2021 – ‘Reupholstered Psalms: Ancient
Songs Sung New’**

The old psalms of Israel, with some renovation, can provide us moderns with needed voices of lament over climate change, pandemics, extinctions and other scourges whipping the dignity of life on Earth. They can also inspire praise and thanksgiving, both of which lead to conversion and action. We’ll use the psalms this evening to open our eyes, minds and hearts.
